

**PETRIFIED DROPS**  
**RAFT IN PLACIDITY**

**FANCYMUSIC**

“Raft in Placidity” is the debut album of the band “Petrified Drops”. While working on the album, we experimented with different musical styles, trying to preserve the emotional fullness and integrity of each composition. A lot of people took part in this project and each of them brought something personal to our music. Each track of this album has its own inner story as a small footprint of my life path. The album is dedicated to the memory of my mother Elena Drazhnikova.

“Raft in Placidity” — дебютный альбом группы “Petrified Drops”. Работая над альбомом, мы экспериментировали с разными музыкальными стилями, стараясь сохранить эмоциональную наполненность и цельность каждой композиции. В проекте приняло участие огромное количество людей, привнёсших в нашу музыку что-то своё. Каждый трек этого альбома — небольшой след моего жизненного пути, имеющий свою внутреннюю историю. Альбом посвящается памяти моей мамы Елены Дразжниковой.
